Education Equivalency for Addiction Counselor Certification

When an applicant submits college courses on an application to the Center for Credentialing & Education (CCE) in lieu of one of the required training classes, it is the applicant's responsibility to demonstrate how their college course is equivalent to the Office of Behavioral Health (OBH) approved core competencies for that class. They are advised to compare the class syllabus to the core competency for the CAC required class. Anyone wishing to use college equivalents must submit the following to CCE (*please be advised this process can take 4-6 weeks*):

- An official transcript from an accredited college or university in a sealed envelope. The courses must be in a behavioral health science or field. Each college class being offered as the equivalent of a CAC required class must have a grade of C or above.
- A cover letter with an attached syllabus and a written description about why the college class is equivalent to the CAC required class.
- A college course must offer college credits that are equivalent or greater than the number of clock hours required for the OBH training class.

Additional information is available on the CCE website:

<http://www.cce-global.org/Assets/StateLicensure/COappAddictionCounselors.pdf>

- Three semester credit hours = 45 clock hours
